- Designing, approving, monitoring and reviewing the assessment strategies for modules and awards wherever the learning takes place (GP 1, 3);
- The consistent implementation of rigorous assessment practices, which ensure that the academic/professional standard for each award element is set and maintained at the appropriate level and that student performance, is properly judged against this (GP 2, 4);
- Evaluating how academic standards are maintained through assessment practice that also encourages effective learning and a high quality learning experience. (GP 8);
- Ensuring that External Examiner feedback is utilised effectively to inform future practice and enhancements to processes (External Expertise: GP 2, 6).

2. POLICY AIMS/OBJECTIVES

This policy applies to all staff teaching on higher education programmes/awards and learners undertaking a higher education award with Leeds City College. All learners in the College are entitled to learning support and assessment information that is clear, transparent, is compliant with the requirements of the awarding body and provides feedback on progress.

Its purpose is to ensure that the HE assessment and moderation policy and procedures are implemented consistently across the College and that the requirements of awarding bodies are met. In addition, the HE assessment and moderation policy and procedures are fully informed by the revised QAA Quality Code (primarily Assessment).

Assessment measures achievement of the outcomes of learning in terms of knowledge skills and understanding. The purpose of assessment is to:

- determine if a potential student is ready to start a particular course of learning; (diagnostic assessment) (Admissions, Recruitment and Widening Access GP 9);
- provide guidance on how well students are progressing (formative assessment)(GP 6, 9);
- determine eligibility for final grading of module or awards (summative assessment)(GP 2);

Moderation is a process through which the college assures itself that academic standards are being met and that assessment procedures are being implemented in a way that ensures that assessment decisions are safe, fair and valid. The purpose of moderation is to:

- Verify that the College is maintaining the threshold academic standards set for its awards in accordance with the framework for higher education qualifications and applicable subject benchmark statements (GP1).
- Ensure that the assessment process measures student achievement rigorously and fairly against the intended programme outcome(s) and is effectively operated in accordance with institutional regulations (GP 2, 4, 8, 10).

- Verify that the standards of Leeds City College awards and the achievements of students are appropriate and comparable to other higher education institutions which the external examiners have experience (GP 2).
