

This weeks Recreate is based on the Girl with a Pearl Earring by Dutch artist Johannes Vermeer, dated c.1665.

The girl in the painting remains anonymous, and even the title of the painting has changed over the years. Creating mystery and allowing our imagination to fill in the blanks, there has now been a book and Hollywood film made about it.

In the first image on the second page you can see Kelly, Leeds City College's Artist in Residence interpretation of recreating the painting by using items she's found around the house.

Give it a go and show us your interpretation by sharing it with us on Instagram @creativeartslcc
