

Autocare Technician Apprenticeship

Level 2

33 months

Performing a variety of services and repairs on cars, car-derived vans, and light goods vehicles.

Apprenticeship overview

Autocare technicians work in the automotive industry, typically in autocare or fast fit centres, either independently owned or part of national chains. They combine technical, retail, and customer service skills to inspect, service, and repair cars, vans, and light goods vehicles, including electric or hydrogen-powered models. They use specialist tools and diagnostic equipment, manage stock levels, and ensure high service standards. Technicians communicate effectively with colleagues and customers, handle basic complaints, and complete transactions. They follow health, safety, and environmental regulations, wear appropriate PPE, and take responsibility for their work quality, time management, and task organisation.

Typical job roles

- Autocare Technician
- Automotive Mechanic Technician
- Autotrade Mechanic
- Motor Vehicle Technician
- Vehicle Technician

Why choose an apprenticeship for your business?

The benefits, in brief:

- Retrain and upskill your current team
- Fill skill gaps and expand your workforce
- Diversify your team and bring in fresh ideas

Why choose us?

- We are one of the biggest apprenticeship providers in the region
- We are funding experts and can help you get the maximum benefit of government funding available to you
- We will support you as an employer and your apprentice throughout the apprenticeship journey
