

Data Analyst Apprenticeship

Level 4

27 months

Providing insight to businesses to provide solutions and answer questions through examining relevant data.

Apprenticeship overview

Data Analysts work across all sectors and departments, using data to solve problems and support business decisions. They gather, clean, and interpret data to discover insights, inform strategies, and improve performance. Their work may involve analysing social media trends, sales patterns, recruitment data, or service delivery metrics. Data Analysts interact with internal teams or external clients, create and deliver analytical outputs, and ensure data is handled securely and compliantly. They must stay up to date with industry trends, tools, and technologies in this fast-evolving field. Their role is key in making organisations more efficient and evidence-driven.

Typical job role

Data Analyst
Departmental Data Analyst
Energy Data Analyst
Junior Analyst
Marketing Data Analyst
Problem Analyst

Why choose an apprenticeship for your business?

The benefits, in brief:
