

Data Technician Apprenticeship

Level 3

27 months

Data Technicians source, format and present data securely, and in a relevant way, so that it can be analysed.

Apprenticeship overview

Data Technicians work across all sectors where data is generated or processed - this could be, but is not limited to, finance, retail, education, health, media and hospitality. Usually working as part of a team, the role involves gathering, formatting and presenting data for analysis. Working with stakeholders, the data technician would work under supervision from a senior colleague or colleagues, depending on the size of the organisation. The apprenticeship covers the knowledge, skills and behaviours, required to succeed in this role.

Typical job roles

Data Support Analyst
Data Technician
Junior Data Analyst
Junior Information Analyst

Why choose an apprenticeship for your business?

The benefits, in brief:

- Retrain and upskill your current team
