

Engineering Maintenance Technician – Single Discipline Apprenticeship

Level 3

46 months

Engineering Maintenance Technicians work to maintain the safety, integrity, and effective operation of plant, equipment, and systems across a variety of industrial sectors.

Apprenticeship overview

Single Discipline Engineering Maintenance Technicians focus on a specific area of expertise—Electrical, Mechanical, or Control and Instrumentation—to ensure industrial environments remain operational and safe. They conduct planned and preventative maintenance to optimise performance and carry out reactive maintenance to resolve equipment breakdowns. Working in sectors such as manufacturing, energy, and utilities, they are responsible for preparing work areas, identifying faults, and reinstating systems to the required standards while strictly adhering to health, safety, and environmental regulations.

Typical job roles

Electrical Maintenance Technician
Mechanical Maintenance Technician
Control and Instrumentation Technician
Maintenance Engineering Technician
Plant Technician

Why choose an apprenticeship for your business?

The benefits, in brief:

- Retrain and upskill your current team
- Fill skill gaps and expand your workforce
