

# Healthcare Science Assistant Apprenticeship

Level 2

16 months

Performing routine technical and scientific procedures and providing support in hospitals, GP surgeries, and other healthcare settings for a diverse range of patients.

## Apprenticeship overview

Healthcare Science Assistants work in hospitals, GP practices, and other health sector settings, including laboratories and clinical engineering environments. Employed by both NHS and private organisations, they perform routine technical and scientific procedures to support safe patient care across all stages of life. Following standard operating procedures, they prepare equipment, carry out tests, handle data, and may manage stock. They work closely with healthcare professionals, patients, and the public, reporting to senior staff. Responsible for delegated tasks, they follow strict safety and ethical protocols, solve routine problems, and are accountable for their work and ongoing professional development.

## Typical job roles

Healthcare Science Assistant

## Why choose an apprenticeship for your business?

### The benefits, in brief:

- Retrain and upskill your current team
