

# Learning and Skills Teacher

Learning and Skills Teachers are responsible for teaching young people and adults within the Further Education (FE) and skills sector. They help learners gain the knowledge and vocational skills required for their future careers.

## Apprenticeship overview

### Core skills, knowledge and behaviours you will learn

- How to plan and deliver inclusive teaching and learning
- How to design effective curricula and lesson plans
- The use of digital technologies to enhance the learning experience
- The assessment for learning (formative and summative)
- Safeguarding and promoting the welfare of learners
- Collaborative working with employers and awarding bodies

### Where you might work

- Further Education (FE) colleges
- Independent Training Providers (ITPs)
- Adult and community learning centres
- Prison education departments
- Large employers with internal training academies

### Typical job roles

- FE Tutor
- Vocational Lecturer
- Skills Trainer
- Teacher of Post-Compulsory Education

**Level: 5**  
**Duration: 21 months**

### Good to know

This is a “dual-professional” role; you are an expert in your subject area as well as a skilled teacher

You will learn to navigate the specific requirements of Ofsted inspections

Completion often leads to achieving Qualified Teacher Learning and Skills (QTLS) status
